Ngorongoro conservation area is the home to an estimated 30,000 animals. And is often called “Africa's Eden” and the eight Natural Wonder of the World'. A visit to the crater is a main attraction for tourists coming to Tanzania and a definite world-class attraction. Within the crater rim, large herds of zebra and wildebeest graze nearby while sleeping lions laze in the sun. At dawn, the endangered black rhino returns to the thick cover of the crater forests after grazing on dew-laden grass in the morning mist. Just outside the crater's ridge, Nomadic society (Masaai) herd their cattle and goats over green pastures through the highland slopes.

After the game drives, we'll drive to the lodge/camp for dinner and your overnight stay.
